PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years of experience building and supporting business applications, web platforms, dashboards, and workflow systems. Experienced with React, Next.js, Node.js, Express.js, REST APIs, authentication, role based access control, third party integrations, and production deployment. Hands on experience spans the software development lifecycle, from requirements analysis and implementation to debugging, deployment, and ongoing production support.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Astro, Preact, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend & APIs: Node.js, Express.js, REST APIs, JSON Web Token (JWT) Authentication, Role-Based Access Control (RBAC), Third-Party API Integration

Databases & Services: MongoDB, MySQL/MariaDB, Supabase

Developer Tools: Git, GitHub, Postman, Vite

Deployment & Production: Cloudflare, cPanel, DNS, SSL/TLS, Application Deployment, Production Troubleshooting

PROFESSIONAL EXPERIENCE

Web Developer & Digital Strategy Lead | Cube In Cloud

Apr 2025 – Present

Technology: JavaScript, TypeScript, React.js, Next.js, Vite, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs, JWT, RBAC, Third-Party Integrations, Cloudflare, cPanel, DNS, SSL/TLS

- Build and maintain responsive dashboards, forms, data tables, workflow modules, and reusable React and Next.js components for business applications.
- Develop full stack features using Node.js, Express.js, MongoDB, and REST APIs, including JWT authentication, role based access control, CRUD workflows, and third party integrations.
- Support testing, debugging, performance optimization, releases, and production deployment, including hosting, DNS, SSL/TLS, and Cloudflare configuration.
- Collaborate with team members and stakeholders to translate business requirements into application features and coordinate testing, releases, and issue resolution.

Web & IT Specialist | Nagar Autos

Remote | Apr 2022 – Jun 2025

Technology: WordPress, HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS

- Maintained and supported more than 10 live business websites and web applications.
- Delivered frontend enhancements, forms, REST API integrations, performance improvements, and technical SEO across multiple client-facing systems.
- Managed hosting, domains, DNS, SSL/TLS, Cloudflare, business email, backups, and migrations while troubleshooting production issues.

Hub Incharge | Daraz Bangladesh

Jul 2022 – Sep 2024

Promoted from Commercial Executive (Jul 2022 – Mar 2023) to Hub Incharge (Mar 2023 – Sep 2024)

- Promoted from Commercial Executive to Hub Incharge, coordinating a team of 35+ members across daily operations, attendance, shipment workflows, and KPI performance.
- Supported merchant acquisition, seller onboarding, reporting, and cross-team issue resolution to maintain service quality and delivery targets.

Web Developer | Tech ICS Limited

Jul 2019 – Jul 2022

Technology: HTML5, CSS3, JavaScript, WordPress, MySQL

- Contributed to the delivery and maintenance of more than 100 business websites.
- Built responsive layouts, forms, theme and plugin functionality, and website integrations for client projects.
- Improved mobile usability, website performance, technical SEO, and production stability while working with clients and team members to clarify requirements and deliver updates.

SELECTED PROJECTS

PlayIndoorBD | Sports Venue Booking & Operations Platform

www.playindoorbd.com

Technology: Next.js, React, Tailwind CSS, Node.js, Express.js, MySQL/MariaDB, JWT Authentication, Web Push, jsPDF

- Built a web platform for discovering indoor sports venues, booking available time slots, and supporting venue-owner management and operational workflows.
- Delivered customer-facing booking functionality alongside management features for venue operations.

FivoTools | Browser-Based Utility Platform

www.fivotools.com

Technology: Astro, Preact, JavaScript, Supabase

- Designed and developed a static-first web utilities platform with a modular architecture for calculator, business, image, PDF, and document workflows and a 35-tool product roadmap.
- Kept public calculations and file processing browser-local while using Supabase only for CMS, authentication, and contact workflows to reduce privacy exposure and server dependency.

Cube In Cloud HRMS | Human Resource Management System

Technology: TypeScript, React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB/Mongoose, JWT Authentication, Joi, Helmet, Rate Limiting

- Developed dashboards, employee management features, payroll workflows, forms, and API-connected modules for internal HR operations.
- Supported application deployment, production troubleshooting, and ongoing workflow improvements.

KPCL Group CRM | Customer & Project Management System

Technology: React, Vite, Material UI, Tailwind CSS, Node.js, Express.js, MongoDB/Mongoose, JWT Authentication, Recharts, Excel/PDF Export

- Implemented dashboards and workflows for lead, project, and status management within a business CRM platform.
- Built role-based functionality and integrated REST APIs to support controlled access and business processes.
